## HOW MRS. BROWN SUFFERED

During Change of Life—How Lydia E. Pinkham's Vegetable Compound Made Her a Well Woman.

Iola, Kansas.—"During the Change of Life I was sick for two years. Before I took your medicine I could not bear the weight of my clothes and was bloated very badly. I doctored with three doctors but they did me no good. They said nature must have its way. My sister advised me to take Lydia E. Pinkham's Vegetable Compound and I purchased a bottle. Before it was gone the bloating left me and I was not so sore. I continued taking it until I had taken twelve bottles. Now I am stronger than I have been for years and can do all my work, even the washing. Your medicine is worth its weight in gold. I cannot praise it enough. If more women would take your medicine there would be more healthy women. You may use this letter for the good of others."—Mrs. D. H. Brown, 809 N. Walnut St., Iola, Kan.

Change of Life is one of the most critical periods of a woman's existence. Women everywhere should remember that there is no other remedy known to so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Binding Kings With Chains. Do we realize that the work of binding kings with chains is going on before our very eyes today? Perhaps we have not noticed it, but the newspapers record the facts from day to day and from year to year. There is not much more of the work to be done. In a little while the kings will have been securely chained in every corner of the earth.

Not that the chains are literal chains. O No! The chains that bind the kings are more effective than merely iron chains. When David wrote that the Messiah would "Bind their kings with chains and their nobles with iron" (Psa. 149:8,) he meant that with the establishment of His reign would come the end of man's tyranny over man. With the passing of copper cooking utensils passed the copper-smith, with the passing of the horse will go to the blacksmith, and with the passing of Satan's permission "to scatter the power of the holy people" (Daniel 12:7) will pass the king.

The United States, France, Portugal, China, Switzerland, Cuba, Mexico, the Philippines, Hawaii, and all the Central and South American nations have done with kings, and in the last ten years every absolute monarchy in the world has passed out of existence. The kings are taking it hard. Press dispatches say the Ex Empress of China weeps ceaselessly, that she lives in the old palace of the Forbidden City, absolutely deserted by all relatives and former court attendants, except a few servants, who spend much of their time robbing the palace of all the

valuable it holds.

The Psalmist says further (Psalm 110:5, 6) "The Lord (Adonai, the Messiah) at thy right hand (Jehovah's right hand) shall strike through kings in the day of His wrath. "He shall wound the heads over many countries." If we see the kings being stricken, and if we see them being wounded, is it not an indication that Messiah's kingdom is nigh? Is it not an indication that He is exercising His long-promised power?

Miss Velma Ross, niece of Hossay Graddy, of Madisonville, while making tea in a tin bucket, the lid on account of the steam blew off and burnt the entire side of her face, making it necessary to take one eye out and it is thought that she will lose the other one. She is nineteen years old and has been living with her uncle for some time. Her many friends hope that it will be possible to save the sight in the eye that is left.

A Barbed Wire Cut, Collar or Saddle Gail not properly healed leaves a disfiguring scar.

## Baillard's SNOW LINIMENT

Is the Right Remedy for All Abrasions of the Flesh.

If the wound is cleaned and the liniment applied promptly, the healing process begins at once and the wound heals from the inside outwardly, thus performing a perfect cure that leaves no scar. If the wound heals on the outside too quickly, pus forms under the surface and breaks out into a running sore that is hard to cure and inevitably leaves a bad scar.

Owners of blooded stock prefer this liniment to all others for that reason, and they use it not only on fine animals, but on human flesh, as it does its work quickly and thoroughly.

Price 25c, 50c and \$1.00.
